

Eden Valley Plant List

Below is the list of plants we are currently planting on the site. This will be updated in next few years as we learn more about the site. The only supplier we currently accept is [Naturescape](https://www.naturescape.co.uk) as we know the plants they provide are of good quality and none of the plants are hybrids.

For a **5% discount** please use the code **edenvalley**. This can only be used when ordering online.

If the plot has not settled, it may be best to plant to the side of the grave as the turf may be removed to top up.

To make the biggest impact you should plant bulbs in dense blocks. Of course you can choose a few blocks of different varieties. If you buy bulbs for planting in the spring they will likely be referred to as 'in the green'. This means that they will have leaves and possibly even a flower or two. Transplanting them in the green comes as a bit of a shock but may give you some instant colour on the grave plot. They will not look their best until the following year.

You are welcome to do planting at any time but some guidelines to help are as below. As the site is clay it is very hard in the summer, planting is possible but just requires a little more strength! Please note, Naturescape does have forward ordering on its site, so if something is out of season you can do this, but the plants will not be received straight away.

End January to end of March	Plant 'in the green' bulbs. These are more likely to flower the first year.
Spring – September	Plant plugs and 9cm pots.
August – December	Plant 'dry' Bulbs (autumn bulbs).

Bulbs only (in the green/dry)

Wild Daffodil (spring flowering) pale yellow
Solomon's Seal (late spring flowering) white
Winter Aconite (winter flowering) yellow
Wood Anemone (spring flowering) white
Lesser Celandine (spring flowering) yellow
Cuckoo Pint (autumn berries) orange
Wild Garlic (late spring flowering) white
Snowdrop (spring flowering) White

Bulbs or plugs

English Bluebells (late spring flowering) blue

Bulbs or 9cm pots

Planting Service

House Cemetery Maintenance do a planting service if you cannot make it to the Burial Ground. Please email for more details.

All planting is done at your own risk and we cannot guarantee which plants will grow on your particular plot. Please see our terms and conditions for more details.
